Comment:  
MKIII doing calibrations, meanwhile, I was baffled by a character  
on my Console that I could not get rid of. Got out of the situation  
I think, by doing a control C and moving my cursor with the mouse.

Observing normally again. Was operating in ignorance mode for  
a while, discovering "new" stuff about this machine.  
MKIII calibration was slow due to inattention, but it's pau now.
