Sun Apr 17 17:33:38 GMT 1994: Patrol Start

COMMENT: Sun Apr 17 17:46:29 GMT 1994  
LOW-L program crashed at 23:54:14 on 4/16. Nothing updating on the screen.  
Crashed while still using tape drive #1 for storage, status lines show:  
message sync  
tape 1 idle  
Solar position display appears to show where the sun was when crash occurred  
but objective head is pointing down in the far west position. Will restart  
program and remove tapes from both drives even though it appears that  
nothing was written to drive #0.
