COMMENT: Thu Aug 11 19:47:26 GMT 1994
reconfiguring dome shutter. Not stopping the observing systems
as we are not missing anything worth seeing anyway.
Still in thin cirrus overcast.

COMMENT: Thu Aug 11 21:30:10 GMT 1994
Possibility of getting obs today looks very poor. I am stopping
MKIII and DPMON. Will recycle tapes. If it should clear up
later, tapes can be restarted as new tapes as there is no
good data on them so far.

Activity:
QP: 50; 85; 110; 128; 230; 253-265; 302; 317;
No coronal data

Tapes: LOW-L: L00090 on unit 0
