

Mauna Loa Solar Observatory Observer's Log

Tue Apr 25 17:00:30 GMT 1995

Year: 95 Doy: 115

Observer: koon console Apr 25 16:57

WEATHER COMMENT: Tue Apr 25 17:00:34 GMT 1995

Medium cirrus and altocumulus overcast with dark skies to the East and West.

Wind=20 mph from thw SW, high wind warnings are in effect with possible blizzard conditions expected today or tonight. Temp=35 F.

LOW-L COMMENT: Tue Apr 25 17:22:17 GMT 1995

Removed L00224 and installed L00226 in drive #0.

WEATHER COMMENT: Tue Apr 25 18:49:54 GMT 1995

Raining and stronger wind now.

LOW-L COMMENT: Tue Apr 25 21:28:31 GMT 1995

I've made some requested changes to the lowl checkinput.c program, they will allow us to manually change the exposure times. We need to take a series of images at various exposures to be used as a test of the CCD exposure linearity. It is raining off and on and the density of cloud cover is variable, today doesn't seem like a good day to do that sort of test.

COMMENT: Tue Apr 25 22:35:57 GMT 1995

TAPES:

LOW-L: L00225 in drive #1, L00226 in drive #0, no good data due to clouds/rain

Tue Apr 25 22:37:25 GMT 1995: Filemark
