MKIII COMMENT: Mon Dec 11 22:30:57 GMT 1995

After typing in "Weep" to end observing the tapes drive stalled while writing an EOF mark, both lights continued to stay on and the instrument wouldn't start scanning again. Ejected tape manually, no double EOF at end of data.

MKIII COMMENT: Mon Dec 11 22:34:06 GMT 1995

Checking the scan-log shows that the last file is at 21:35:20, may have lost an hour of scans.
