Mauna Loa Solar Observatory Observer's Log  
-----

Mon May 6 16:26:09 GMT 1996  
Year: 96 Doy: 127  
Observer: yasukawa

WEATHER COMMENT: Mon May 6 16:41:20 GMT 1996  
Extensive, heavy cirrus overcast. Cool, south wind.

Comment--Mon May 6 16:42:08 GMT 1996  
I will not open up instruments at this time. Working on GONG  
tape drive problem and will work on post-installation  
recovery and clean-up.

Comment--Mon May 6 17:35:06 GMT 1996  
No observations at this time. I will update the log if there is  
any changes. Meanwhile I will end and send it so that I can  
power down.
