LOW-L COMMENT: Sat May 25 17:15:20 GMT 1996

Found the program crashed in the classic old style with graphic rectangles on the screen. Removed L00394 from drive #0 and moved L00395 from drive #1 to #0, installed L00396 in drive #1 and restarted the program. The program crashed at 01:10:26 on 5/25 UT, while writing to L00394 in drive #0, I was able to get an MS-DOS prompt by typing in "fix <return>", which doesn't always work with similar looking crashes.

WEATHER COMMENT: Sat May 25 17:21:02 GMT 1996

Scattered thin cirrus is passing over.
