Still driving to polarizer. Give Clear command, goes to clear, then drives to polarizer.

DPMON COMMENT: Sun Oct 13 17:46:38 GMT 1996

Blew out encoder wheel with airbrush, Clear is 0,0, so polarizer might have been blocked. tried going to CLEAR and it went there and is staying so far.

Daystar was not moving also, cycled it manually and after a few cycles, it responded OK>

DPMON COMMENT: Sun Oct 13 17:51:46 GMT 1996

Crashed waiting for WaitRepl, cancelled it and Patrol resumed, but it went back to Polarizer, which is not bad, as it is presently a clear aperture. Halle is working.
