WEATHER COMMENT: Wed Apr 16 18:27:41 GMT 1997

Wind has died down for now. Contractors are scooping and dumping dirt below observatory. So far no dust is coming our way, but should upslopes pick up, I will have to be vigilant about protecting our lenses and instruments.

COMMENT: Wed Apr 16 18:57:49 GMT 1997

Going down to talk with the project engineer for NOAA's building.
