MKIII COMMENT: Fri Jun 27 17:31:01 GMT 1997

I can't get the DEC computer to boot up. It starts up like normal up to the point where I toggle the Boot switch, usually the prompt "QUESTION?" appears on the printer terminal and the monitor screen asks for the password, but I'm not getting either of those prompts.

MKIII COMMENT: Fri Jun 27 18:25:26 GMT 1997

I talked to Al Kai the DEC guy, he doesn't understand what is wrong, he'll be back on Monday to try again. The DEC computer is still down and we still can't get any MKIII data until it is fixed completely.

MKIII COMMENT: Fri Jun 27 20:09:23 GMT 1997

Tried using backup disk #0 to boot the computer, it was write protected.

Got same results as with regular disk #0, no bootup. Took out backup disk and reinstalled regular disk.

COMMENT: Fri Jun 27 20:20:12 GMT 1997

Since it is still cloudy and I have to finish preparing the trailer to be removed today I am shutting everything down. The tow truck will be here

any time now.
