Both the disk and limb images are appearing higher than normal on the Display window, but they look properly centered on the Camera window.

LOW-L COMMENT: Sat Feb 21 19:42:43 GMT 1998

Program was crashed with the old graphic rectangles on the screen. I checked all the parameters in CTCONFIG and they were all good except the year was set at 97 instead of 98, I changed it to 98 and restarted the program.

Removed L00497 from drive #0, moved L00498 to drive #0 and installed L00499 in drive #1.

MKIII COMMENT: Sat Feb 21 22:09:37 GMT 1998

Tape wouldn't pop out after pressing End Day, and the Write field is green.
I didn't notice any "wrote 0 records" messages though, and the tape popped
out manually OK.
