Wed May 13 16:55:30 GMT 1998

Year: 98 Doy: 133

Observer: koon

WEATHER COMMENT: Wed May 13 16:55:32 GMT 1998

Thick cirrostratus overcast, wind=5 mph from the West, temp=47 F.

COMMENT: Wed May 13 16:59:26 GMT 1998

The clouds are too thick for the spar to track, probably won't get any observations today.

COMMENT: Wed May 13 19:43:00 GMT 1998

\*\*\*\*\*RECYCLING H01823 and H01824\*\*\*\*\*

PSPT COMMENT: Wed May 13 20:03:24 GMT 1998

Haosheng is testing some things with the instrument.

COMMENT: Wed May 13 21:16:23 GMT 1998

Since we may be getting our new truck soon and may not have the van much longer I loaded those leftover crates into the van and will take them down today. It took a lot effort but I managed to fit both crates into the van after removing a seat.

WEATHER COMMENT: Wed May 13 21:19:59 GMT 1998

Still have very thick cirrostratus.

MKIII COMMENT: Wed May 13 21:20:18 GMT 1998

Since it is cloudy I'll work on the limit switch conversions for the dark shutter and the ND filter assemblies.

PSPT COMMENT: Wed May 13 22:45:00 GMT 1998

Still need to work on the telescope, Haosheng will continue after I leave, via the internet, I'll help tomorrow.

MKIII COMMENT: Wed May 13 22:45:55 GMT 1998

Will continue the limit switch and cable changes tomorrow.

Wed May 13 22:48:32 GMT 1998
