Paused due to clouds.

Wed Jun 17 19:34:44 GMT 1998 CHIP CHIP End Patrol

COMMENT: Wed Jun 17 21:37:39 GMT 1998

I've been checking the new cmelst and the return messages that Eric got
on Monday. Some of those addresses on the returned messages are very old,
like selvax.span, I changed that years ago. I don't understand why but
somehow the old addresses were used.

There is still a problem getting our mail relayed beyond Boulder, Leonard
is working on it.
