MKIV COMMENT: Sun Jan 17 20:13:21 GMT 1999

MKIV PROBLEM: Sun Jan 17 20:13:35 GMT 1999

I think I fixed at least some of the Hard Disk configuration problem yesterday afternoon just before leaving. I sent out a more detailed email message about it this morning.

LOW-L COMMENT: Sun Jan 17 20:44:36 GMT 1999

Stopped observations to do the latest software changes related to the clock reset problems. Removed L00571 from drive #0 and cleaned that drive before moving L00572 from drive #1 to that drive. Installed L00573 in drive #1. Now I have a bunch of software changes to make before restarting.

LOW-L PROBLEM : Sun Jan 17 23:07:33 GMT 1999

I've found the root of the errors, now I'm going through and modifying
fixtime.c and a few other files. OK now I restarted observations and
everything looks good.

PICS COMMENT: Sun Jan 17 23:38:29 GMT 1999

I found the spare shutter that matches the control board. I put both next
to the printer on top of the "PICS Day" instructions from David.
