Observer: koon

WEATHER COMMENT: Wed Jun 30 17:19:38 GMT 1999

Clear sky, no wind, temp=53 F.

IP CHIP Start Patrol

MKIV PROBLEM Wed Jun 30 17:19:59 GMT 1999

I think someone rebooted Nahenahe via long-distance while I was trying to login. I had to reset the KCC to get the proper startup screen.

PICS PROBLEM Wed Jun 30 17:21:23 GMT 1999

I think this is down, it looks like the camera may have been removed and sent back to Kodak, but that is unclear, I won't try to get any data until I can figure this out.

PICS PROBLEM Wed Jun 30 17:35:26 GMT 1999

Acoording to my email the camera was sent back for shutter repair.

CHIP COMMENT: Wed Jun 30 20:13:15 GMT 1999

I am stopping obs to remove the filter controller, open it up, and change the setpoint from 0.644 to 0.639 which will hopefully get the temperature up to 34.55 from 34.35 C.

COMMENT: Wed Jun 30 20:45:41 GMT 1999

Extended the dome slot about 30 minutes ago.

CHIP COMMENT: Wed Jun 30 20:46:00 GMT 1999

Restarting Patrol. I replaced the temperature controller on the Spar with my new calculated setpoint. Temperature is currently at 32.487 C and climbing.

CHIP COMMENT: Wed Jun 30 21:23:52 GMT 1999

Temperature has passed through the ideal range and is at 35.255 and climbing now.

CHIP COMMENT: Wed Jun 30 21:55:35 GMT 1999

Temperature is at 35.216 and falling, yay!

CHIP COMMENT: Wed Jun 30 22:28:25 GMT 1999

The filter temperature is still in transient state, will have to wait until tomorrow to see what the steady state temperature is, and do a Spectrum test if the temperature is right.

COMMENT: Wed Jun 30 22:31:47 GMT 1999

TAPES:

MKIV: 99181

CHIP: C00851

LOWL: L00608 in drive #0

PICS: Down for repairs.
