Year: 99 Doy: 344

Observer: yasukawa

WEATHER COMMENT: Fri Dec 10 17:13:44 GMT 1999

Cold, in heavy weather system--Thick cirrostratus, thick broken altocumulus, and high cloud bank to east with heavy rain. Mauna Kea reporting snow on their summit, possibly snowing on Mauna Loa summit.

Brisk south wind.

COMMENT: Fri Dec 10 17:44:20 GMT 1999

Water and drips in the usual places in PSPT/LOWL control room.

Small puddle near southeast corner of PSPT dome. Main dome and control room dry. Mopped up water and placed trash can under leak on ceiling.

Mopped rest of control room.
