\*\*CHIP PROBLEM\*\* Sat Mar 25 20:11:18 GMT 2000

Getting tape write I/O errors. The current drive was installed yesterday by Eric when he had problems with the previous drive, so we are back to the drive that was removed back on 3/1/00 when we suspected it of causing program stalling problems, so far I haven't seen one of those stalling problems, interesting.
