COMMENT: Tue Mar 13 21:43:46 GMT 2001

Bunny is checking with data users if it is OK to test the new network.

COMMENT: Tue Mar 13 22:12:18 GMT 2001

Test of new network was successful. We connected a straight-thru cable between the FRAD and 25A on the Grand Junction switch, unplugged the BNC to the oldnet router, REBOOTED the Grand Junction (pulled power cord/ reconnected power cord -- ugh!) and plugged laptop into the temporary port. I was able to ping MHPCC and UCAR gateways with the laptop, I received email and sent email to Bunny while configured on the new network.

Reconfigured network back to original configuration, rebooted switch.

COMMENT: Tue Mar 13 22:19:07 GMT 2001

Just sent/received email on old net. System is back up.
