WEATHER COMMENT: Wed Jul 4 20:34:50 GMT 2001

We are right at the edge of a hole in the clouds, the sun finally showed through enough for the Spar to barely track for a few minutes. I started some instruments but now the Spar isn't tracking.

WEATHER COMMENT: Wed Jul 4 20:42:11 GMT 2001

Starting to get the biggest hole in the clouds that I've seen today, so the Spar is tracking somewhat.

WEATHER COMMENT: Wed Jul 4 21:02:46 GMT 2001

The cloud cover is very thick and extensive like this morning again, the Spar isn't tracking, closing down.
