****PICS PROBLEM****: Tue Jun 18 20:15:16 GMT 2002

When I changed occulting disk on 5/24/02, DOY 144, I overlooked typing in "SetOccultingDisk 1971" on nene which puts the occulting disk size on the header. I was working on MLSO manual updates and rediscovered this instruction. I'm not sure it was done when we were fiddling with occulter sizes when Holzer requested we use larger occulters March (around 3/4/02).

WEATHER COMMENT: Tue Jun 18 20:31:58 GMT 2002

Clouds thinned, thicker altocumulus more scattered.
