

-----  
Mauna Loa Solar Observatory Observer's Log  
-----

Thu Sep 12 17:19:45 GMT 2002

Year: 02 Doy: 255

Observer: koon

WEATHER COMMENT: Thu Sep 12 17:19:46 GMT 2002

Medium to thick cirrostratus and altocumulus overcast, no wind, temp=50 F.

COMMENT: Thu Sep 12 17:23:59 GMT 2002

No observing until Spar can track the sun.

GONG COMMENT: Thu Sep 12 17:24:16 GMT 2002

Stopped by shelter to check a few things before coming up to MLSO, since it is cloudy.

COMMENT: Thu Sep 12 22:38:32 GMT 2002

Returned media converter to NOAA, we had borrowed it for GONG network.

WEATHER COMMENT: Thu Sep 12 22:39:18 GMT 2002

Very thick clouds all day, no observing.

Thu Sep 12 22:52:36 GMT 2002
