
Mauna Loa Solar Observatory Observer's Log

Thu Sep 26 17:58:38 GMT 2002

Year: 02 Doy: 269

Observer: stueben

WEATHER COMMENT: Thu Sep 26 17:59:29 GMT 2002

clear sky,wind 5mph south, temp 47F

MLSO PROBLEM : Thu Sep 26 18:03:44 GMT 2002

Had a few problems starting up with Allen's new accounts this morning, so we are starting a little late, but we're getting these things fixed with help from Eric Gilbert and Bunny. I had to copy my .files to Allens accounts and Bunny showed me how to put Allen in the right group to allow him to be able to write to file (like the log) from his accounts. I'm still working on this but Nahenahe is up and running so far.

PSPT PROBLEM : Thu Sep 26 18:07:49 GMT 2002

Haven't been able to start this yet, keeps stalling at "taking 3 darks".

PSPT PROBLEM : Thu Sep 26 18:14:47 GMT 2002

Still won't start all the way, there are error messages now on the Sparc that say something about looping but not starting. GUI still doesn't get past "taking 3 darks". Will work on this later, need to get other instruments going first.

MLSO PROBLEM : Thu Sep 26 18:32:42 GMT 2002

I've got all the Sparcstations up and running using Allens accounts, we're taking data.

MKIV COMMENT: Thu Sep 26 18:37:52 GMT 2002

Centered the O1, it's within range too.

ECHO COMMENT: Thu Sep 26 18:51:31 GMT 2002

Images look dark, changed max display value to 1500 to lighten images.

Thu Sep 26 19:06:21 GMT 2002 CHIP End Bias

PSPT PROBLEM : Thu Sep 26 19:08:43 GMT 2002

Eventually got this going by turning off everything and starting up again like a new day, this didn't work the first time though - maybe because I restarted the GUI then cycled the electronics power instead of starting like a new day.

COMMENT: Thu Sep 26 21:29:23 GMT 2002

Setup Allen's email program a little nicer.

MKIV COMMENT: Thu Sep 26 21:30:05 GMT 2002

Centered 01, it's within range too.

WEATHER COMMENT: Thu Sep 26 22:07:58 GMT 2002

Orographic clouds are starting to blow over.
