WEATHER COMMENT: Sat Oct 5 16:46:17 GMT 2002

overcast, light rain, light wind, cool

MLSO PROBLEM : Sat Oct 5 16:53:05 GMT 2002

Darryl can't login to Kaiee to check his mail, his password has been changed for some unknown reason.

A NEW TAPE HAS BEEN PUT INTO KAIEE DLT DRIVE, Sat Oct 5 17:28:45 GMT 2002

MLSO PROBLEM : Sat Oct 5 17:50:24 GMT 2002

I changed my password and could login to Kaiee. There are apparent space problems there. Every minute or so a series of messages displays on the screen:

No data to transport in /data.mk4/spool

No data to transport in /data/pics/spool

and so on , 7 similar messages.

Also, less frequently there are messages like:

Kaiee sendmail "low on space"

(have 0, SMTP-DAEMON needs 101 in /var/spool/mqueue)

and:

alloc: file system full

So I sent a message to "trouble" but it may not get through due to the mail problems, I also called Bunny's telephone number and left a verbal message. She probably won't get to it until Monday. For now we can clumsily check our email by logging into Kaiee and using mailx.
