\*\*MLSO PROBLEM\*\*: Wed Apr 7 00:13:32 GMT 2004

We still have the problem where our phoneline won't ring. I checked with Verizon, they will be sending up someone on Thursday. I gave them my full name and our location and our FAX phone number which we can use to receive calls for a while. I'll turn off the FAX for now, that way 961-9270 will ring for us if Verizon or someone else tries to call us.

COMMENT: Wed Apr 7 00:22:02 GMT 2004

The simplest way to disconnect the FAX from our telephone system was to

simply unplug the phone line going to it, else it interfered with the number of rings and did strange things. So we need to plug the phone line back into the FAX after we get ringing back on 935-0533.

WEATHER COMMENT: Wed Apr 7 00:24:34 GMT 2004

The clouds are thick and getting dark, I closed the domes.
