Entry gate wouldn't open after 4 or 5 repeated tries, eventually it worked after I waited a few minutes and tried the same code at the same keypad.

\*\*ECHO PROBLEM\*\*: Tue Aug 9 18:14:08 GMT 2005

Looks like this never got going correctly after yesterday's power outage, it was still pointed at about the 2pm position this morning. Restarting echosys didn't clear the problem, I had to restart the PC and GPS and echosys to fix the problem.
