Going down to shelter to work on camera tests.

GONG COMMENT: Tue Aug 30 21:17:30 GMT 2005

Back from shelter for 2nd time. I installed the new camera cable and noticed a noise when turning on the Data Chassis that may be the fan on the camera going bad. Guillermo discussed this with other Gong guys and asked me to start observations anyway, they'll monitor the parameters and let me know if I need to do anything else later. So I went down to the shelter again and started observations, so far all is well.
