COMMENT: Thu Sep 1 19:28:53 GMT 2005

I just went down and opened the security gate so that a truck with a container for the new observatory down the road could turn around. The truck turned around below the NOAA building and didn't appear to generate much dust.

COMMENT: Thu Sep 1 20:09:07 GMT 2005

Reconfigured dome shutter.

____end____

PSPT PROBLEM:

Fri Sep 2 00:50:13 GMT 2005
About 0020UT I noticed that the pspt images were poor - light to the left and dark to the right. We've seen this a few times lately and rebooting the PC seems to fix it. After rebooting it seemed OK but about 10 minutes later I heard the dome make a long move and then stop with the motor still running and gear teeth skipping. It had jammed against a ladder on the roof. I stopped the dome, moved the ladder and the restarted everything. Startup went OK and images are good again.
