MLSO PROBLEM : Sun Apr 16 01:08:53 GMT 2006

The data area on kenobi appears to be full. I have been getting email warnings that kenobi had less than 5G of data space remaining and then about 0015

started to get pics and chip images out of date emails. Pics and Chip were

running OK so it appears there is now where for the data to go. I have stopped pics and chip.
