SBM COMMENT: Sun Jun 18 16:51:33 GMT 2006

This was apparently not shut down yesterday, program was still running this morning, I shut it down and restarted. Observing.

A NEW TAPE HAS BEEN PUT INTO KAIEE DLT DRIVE, Sun Jun 18 17:07:28 GMT 2006

PSPT PROBLEM Sun Jun 18 17:53:45 GMT 2006

I finally saw the dust cap opening problem, it didn't open for obs this morning.

I checked the motor, it was warm, so I pushed the cap arm a little and it

opened, so it was stalled, maybe due to friction so I lubed the gears.

Now observing.

SBM COMMENT: Sun Jun 18 20:03:19 GMT 2006

I moved the solar image so the brightness ring looked more evenly illuminated.

It appears that Geocentric North is down on the screen display and

Geocentric West is to the left.

____end____

COMMENT: Sun Jun 18 20:26:24 GMT 2006

Extended the dome slot.

pics_PROCESSING PROBLEM Mon Jun 19 00:37:02 GMT 2006

It seems like whenever I run mssrestore on data for 2006 I get emailed a message that says there was a problem processing pics data, but some days on the HAO website data calendar go from red to green anyway. DOY 167 and

168 stayed red though I ran mssrestore on them both today - and I got the error message emails.
