MLSO PROBLEM: Fri Jan 19 01:05:13 GMT 2007

Major power outage found this morning, broken powerline found as I drove up. I called HelCo, they had power back about 2:20 pm. I have been testing and bringing up all the equipment, so far all is well. Had to type in "boot" at the "ok" prompts for Nahenahe and PSPT Sparcstations to get them booted up all the way, that is something new I was unaware of but eventually figured out.
