COMMENT: Sun Feb 3 19:41:05 GMT 2008

Installed new HP 1020 printer and the printer server, trying to figure out how to load software for them. Can't get a test sheet from printer by pressing button on printer server, printer server box doesn't list the HP 1020 as a compatible printer among many listed. The HP 1020 didn't come with an instruction book.

COMMENT: Sun Feb 3 22:50:08 GMT 2008

I connected the new printer to the PC since it won't work with the new printer server, I connected the older HP 1510 to the printer server and the network and I installed the server software to the PC but the software won't work on our UNIX machines with CD drives.
