MLSO PROBLEM Fri Aug 22 20:23:28 GMT 2008

FAX line (961-9270) was dead this morning. Did some troubleshooting and found the phoneline surge protector on the east wall powerstrip behind the workbench had blown -- most obviously, one of the fuses inside. This was probably caused by the same surge or lightning strike that took out GONG's lightning protection on their phone line. I will get it replaced, meanwhile, the FAX and modems are unprotected.
