COMMENT: Mon Sep 22 20:00:59 GMT 2008

Alerted by "unable to connect" "chime" on email, IU noticed that kaiee is

rebooting itself. No heads-up from CSMT, waiting to see if they let me know that they are doing this or if this is an autoboot.

WEATHER COMMENT: Mon Sep 22 22:41:50 GMT 2008

Clouds came in at around 2000 UT. I was on a long telecon so I did not stop observations. Fog rolled in soon after so I closed domes after pointing them away from the instruments.

Still in clouds, stopping instruments.

COMMENT: Mon Sep 22 22:50:07 GMT 2008

Kaiee reboot was an autoboot, no one claimed responsibility.

Ejecting and re-inserting DLT tape.
