MKIV PROBLEM Mon Jan 26 18:48:04 GMT 2009

The +-5V supply which was replaced and still shows no output on the +5V is only used for the Dalsa camera. We removed the connector at the camera and the +5V comes up again. We also removed the video and flat cable connectors to the camera and reconnected the power connector and the +5V power is still bad. Our conclusion is that there is a short in the +5V power inside the camera. The camera will need to be repaired or replaced.

Mon Jan 26 23:03:15 GMT 2009 CHIP Start Patrol

Mon Jan 26 23:03:50 GMT 2009 PICS Start Patrol

WEATHER COMMENT: Mon Jan 26 23:03:30 GMT 2009

Clouds have thinned enough to attempt PICS and CHIP obs.

Tue Jan 27 00:02:40 GMT 2009 PICS End Patrol

WEATHER COMMENT: Tue Jan 27 00:02:39 GMT 2009

Clouds thicker, guiding is very iffy. Giving it up.

NICE PICSDISC IMAGE: 2306

NICE CHIP IMAGE: 2306

COMMENT: Tue Jan 27 00:13:55 GMT 2009

Last day up for yasukawa was satisfying. Ran the gamut of troubleshooting, taking things apart, limited observing, and sitting in clouds.

Thanks for the ride, MLSO!
