PICS PROBLEM: Tue Jan 26 18:03:18 GMT 2010

The Ethernet connection wasn't up between alakai and rest of network. Symptoms were no GUI screen for PICS and CHIP, red Fail LEDs lit on VMIVME 4105 and 3125 boards in Alakai (MCC), and inability to Ping Alakai. I checked and reconnected Alakai network connections at back of cabinet and they looked good, then Alakai started up normally, must have been a loose connection.
