MKIV PROBLEM COMMENT BY DARRYL:
Tue Nov 23 19:49:55 GMT 2010

Ben was able to eliminate the repeating error messages yesterday by rebooting Nahenahe and then cycling power to akamai, strangely I also tried that on Sunday but it didn't help then, maybe we have to do that combo repeatedly or after all the other Sparc computers are up and working normally. The repeating error message was:

ERROR: Could not open device: No such device or process
and data aren't saved while those messages are displayed repeatedly in the Console window.
