****GENERAL PROBLEM COMMENT BY ALLEN****: Sat Jan 29 21:04:53 GMT 2011

Checked out the upper dome rotator problem reported by Ben yesterday. The sun sensor is ok but the dome relay contacts were bad. After cleaning the contacts and reinserting the relay the rotator is OK. We have an old modified spare relay but it doesn't work reliably so its probably time to by a new one as the contacts I cleaned looked badly worn. The relay is a Potter Brumfield CHB-38-70021 - they are readily available but now cost about \$150. RIM task.
