GENERAL PROBLEM COMMENT BY DARRYL: Tue Feb 8 17:54:15 GMT 2011

Gate wouldn't open again, it would beep once and not try to move when I used my remote or either of the 2 outside keypads. I unpinned it and chained it open, I'll let NOAA know about the problem, I think they need better batteries or more of them or they need to point the PV panel to favor early morning, ideally a combination of things so we don't have to face this when things are cold and slippery on that road.

EVENT COMMENT BY DARRYL: Tue Feb 8 22:28:33 GMT 2011

Almost constant EPL activity on the NE limb today, and a couple of nice surges on the West limb at 1900 and 2115UT associated with flaring and the active region visible near the West limb.
