GONG COMMENT BY BEN: Mon Feb 21 22:25:50 GMT 2011

Gong computers moved over to the HawTel network.

However it looks like the netgear gbic on the new switches cannot talk to the media converted in the gong shelter. So we are using the old cisco switch as the MLSO side media converter until we upgrade the gong side.

The spare netgear

switch has tempoarily been taskeded with hosting the UHM network until we complete the transition.
