CoMP COMMENT BY DARRYL: Wed Mar 2 19:14:24 GMT 2011

I marked the packs of new occulting disks and stored them in the wooden occulting disk box on the ComP shelf of the PSPT dome cabinet, the box is labeled "OneShot Occulting Disks" and I put a bag of Nitrile gloves above it, in the box there are packs of tiny O-rings too. I put Steve's write-up in the Manual folder along with some of my notes, add more notes as needed.
