CoMP COMMENT BY BEN: Wed Aug 3 17:48:06 GMT 2011

The hot pixel pattern seen on Monday has gong away. Maybe we just need to power cycle the Rockwell equipment next time we see lots of hot pixels

CoMP COMMENT BY BEN: Wed Aug 3 19:11:12 GMT 2011

The Lakeshore temperature monitor has been moved from the switched powersupply port 3 to a plug directly in the back of the UPS. We should now be able to monitor CoMP temperatures while the instrument is cooling without having to turn the camera on.

GONG COMMENT BY BEN: Wed Aug 3 20:47:35 GMT 2011

MLgong-x station was crashed again this morning, similar to what happened with the pervious computer.

To test if it is a power issue causing the problem I ran an extension cable from mlgong-x to the main MLSO UPS (under the h-alpha station).

We got cryo

____end____

GONG COMMENT BY BEN: Thu Aug 4 01:54:49 GMT 2011

mlgong-x crashed again. It uses the same external powersupply as the laptops. 19.5V 4.62A with positive pin and neagitive barrel.

I am doing a new test to see if the stataion crashes again using the mlso-2 lapotop powersupply
