CHIP COMMENT BY BEN: Wed Nov 23 20:13:41 GMT 2011

Swapped out the Chip ram, with a single 64mb stick I found. I think there used to be at least 128 megs before the swap. perfmeter suggests that 64 might be enough to cover everything, low average swap, cpu, intrupt and collisions
____end____

CHIP COMMENT BY BEN: Wed Nov 23 20:27:30 GMT 2011

The color scheme on the chip display looks funky.
