WEATHER COMMENT: Sat Dec 10 21:45:26 GMT 2011

In denser clouds, instruments idled.

____end____

WEATHER COMMENT: Sun Dec 11 02:26:43 GMT 2011

I was surprised by some blowing fog and got some water drops on the mk4 01.

I removed the 01 and attempted to clean it, but have left it downstairs to dry and for Darryl to inspect before starup tomorrow. It is difficult to see water spots with no sun.
