GONG PROBLEM COMMENT BY DARRYL:
Tue Apr 17 18:31:58 GMT 2012

Turret was oscillating, I turned off the guider for 2 minutes then turned it
back on, image drifted off and then recentered and continued to oscillate.

Turned the guider off then on quickly and still had oscillations. It is
very windy today.

I fixed the turret oscillation problem earlier by going to the shelter and
stowing/unstowing the instrument.
