\*\*GENERAL PROBLEM COMMENT BY BEN\*\*: Wed Sep 5 23:50:50 GMT 2012

Main dome az drive was slipping a lot. I found that one of the bolts that provide a guide for the springs that hold the rack and pinion together was broke. I cannot find a replacement bolt here on the mountain. I will pick up replacements at

Ace this

afternoon.

\_\_\_\_end\_\_\_\_

NOTE BY BEN: Wed Sep 5 23:54:01 GMT 2012

Fog out side is now quite thick.
