CoMP control room mouse is "freaking out", the cursor will randomly flutter around the screen and click things when ever the mouse is moved.

CoMP COMMENT BY BEN: Tue Jan 8 00:56:44 GMT 2013

Replaced the kvm extender mouse with a usb mouse directly connected to the comp computer. It looks like the upstairs comp station was working properly. So I think the down stairs extender is the problem.

NOTE BY BEN: Tue Jan 8 00:58:57 GMT 2013

Made a change to shabar code, to run in a loop until you press stop. It previously ran once (unless the run continuously option was used). Changes will be checked in Wednesday.
