COMP COMMENT BY BEN: Fri Jul 12 17:04:18 GMT 2013

COMP Cropico is off (or at least not displaying anything) this morning. I am not sure why the observing code didn't crash when trying to read it.

____end____

COMP COMMENT BY BEN: Fri Jul 12 17:05:55 GMT 2013

Just pushed the on button, display lit up.

____end____

PSPT COMMENT BY BEN: Fri Jul 12 17:09:05 GMT 2013

Pspt start up routine failed to point at the sun. Its off but a few degrees in RA. Trying again.

____end____

NOTE BY BEN: Fri Jul 12 17:10:57 GMT 2013

The new stairs had a railing when I got here this morning. The roof paint is still a bit tacky; but otherwise I think the emergency repairs might be done, we just have to wait for a storm to see if the leaks went away.

Sat Jul 13 00:28:49 GMT 2013: PSPT Abort Patrol

Sat Jul 13 00:29:01 GMT 2013: PSPT Abort Patrol

NOTE BY BEN: Sat Jul 13 00:31:32 GMT 2013

Domes are closed, due to clouds too thick to observe though and fog about 1 mile NW of the observatory

____end____

NOTE BY BEN: Sat Jul 13 02:34:39 GMT 2013

I did some reorganizing of the PSPT dome floor, in anticipation of the extra boxes and equipment we will get in August. Most of the PSPT spares now live in the cabinets behind nahenahe.

We need to find a constructive use for the hundreds of old tapes (and tape drives) we have up at the observatory
