
Mauna Loa Solar Observatory Observer's Log

Mon Dec 16 17:21:20 GMT 2013

Year: 13 Doy: 350

Observer: berkey

WEATHER COMMENT: berkey: Mon Dec 16 17:21:22 GMT 2013

temp 33f, wind 10mph from SW, patchy cirrus moving quickly, about 20 minutes ago sky was essentially cloud free now it cloudy enough to delay observing hopefully this moves away as quick as it came.

GENERAL OBSERVATORY COMMENT BY berkey: Mon Dec 16 22:44:59 GMT 2013

Looks like there is some structure at about PA250 that forms after the CME launches.

GENERAL OBSERVATORY COMMENT BY berkey: Tue Dec 17 02:18:09 GMT 2013

Network still not up, phone tech I spoke to said, they will dispatch someone in the morning, likely an on site problem. I guess we don't pay enough to get 24/7 help

____end____

GENERAL OBSERVATORY COMMENT BY berkey: Tue Dec 17 02:19:17 GMT 2013

Architect firm came back up today; this time brought survey crew, structural engineer, mechanical engineer and electrical engineer, and draftsmen. At this point they think they have enough info to get a preliminary estimate of work.
