Observer: waters

WEATHER COMMENT: waters: Sun Jan 5 17:15:19 GMT 2014

It's snowing!!! Icy on the way up, had to park in the public parking; car couldn't make it past the gate. Clouds are surrounding the horizon but it's clear directly above. Snow/frost is as far down as 10,000ft. Temp is 29F, windspeed 20mph from the South-Southwest.

GENERAL OBSERVATORY COMMENT BY waters: Sun Jan 5 17:44:12 GMT 2014

Heading down the mountain. Snow is swirling in from the ridge to the south. Since the road was already slick, I'm gunna get out while it's still safe. Comps camera is off and its filled.
