Year: 14 Doy: 047

Observer: waters

WEATHER COMMENT: waters: Sun Feb 16 17:12:41 GMT 2014

Thick cirrus covering the whole sky at present. Temp 41F, currently no wind. Waiting for better skies before opening up.

GENERAL OBSERVATORY COMMENT BY waters: Sun Feb 16 20:44:33 GMT 2014

Managed to clean up Kcor cabinet a bit and get all the filters for the HEPAs in it. Also placed the 4 hard drives in as well. Currently the laptop box for Allen is on the desk next to the printer.

GENERAL OBSERVATORY COMMENT BY waters: Mon Feb 17 01:24:52 GMT 2014

Been shrouded in fog a while now and it doesn't seem to be lifting.
